

VP SEM-JET

WATER GUN

The VP Sem-Jet water gun is a novel hose nozzle, designed to project a powerful water jet with the aid of compressed air. Hand held or mounted on a simple tripod stand, for fast cleaning of cargo holds, hatches, machinery and paintwork.

- Easy to operate, by one man.
- No maintenance.
- Low recoil force.
- Lightweight alloy construction.
- Tripod & hoses also available.
- Forcefully removes cargo residues, sludge etc.

Technical Data

- Weight – 2.7 kg
- Length - 80 cms
- Air consumption approx 2m³/min at 5.6 kg/cm²
- Water – 150-200 litres/min at 2 kg/cm²
- Recoil – 3-15kg
- Connectors – Each gun supplied with open ended coupling to take a 2" water hose and open ended ¾" and 1" air hose couplings.
